Why encourage community participation

Benefits to individual participants

- ▶ Fun way to enjoy and interact with the natural world
- ▶ Learning opportunity
- ▶ Breaks down barriers to engagement with science - gives the public an opportunity to contribute to scientific research
- ▶ Gateway to participation in other types of wildlife monitoring
- ▶ Health & wellbeing benefits of spending more time in nature

iNaturalist data

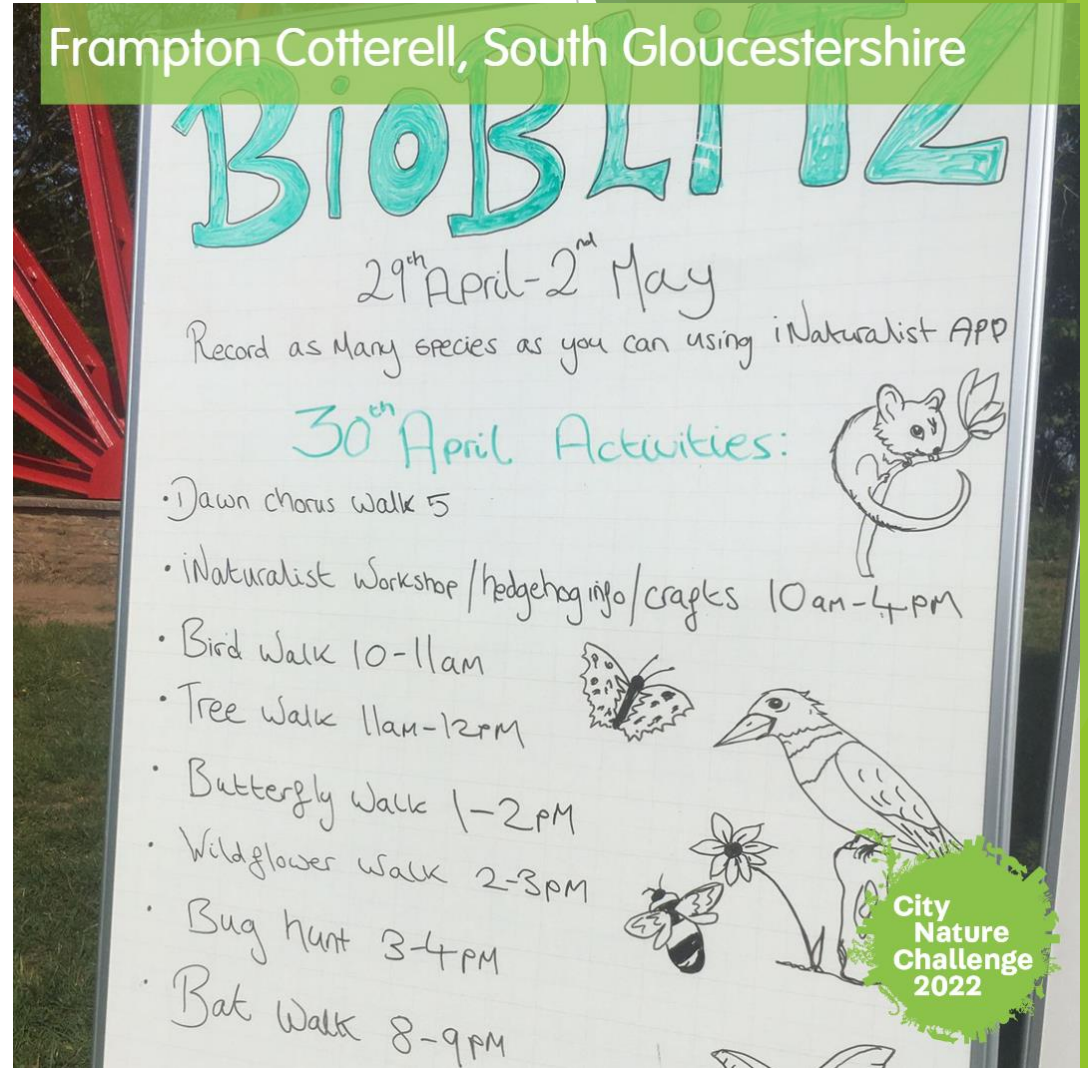

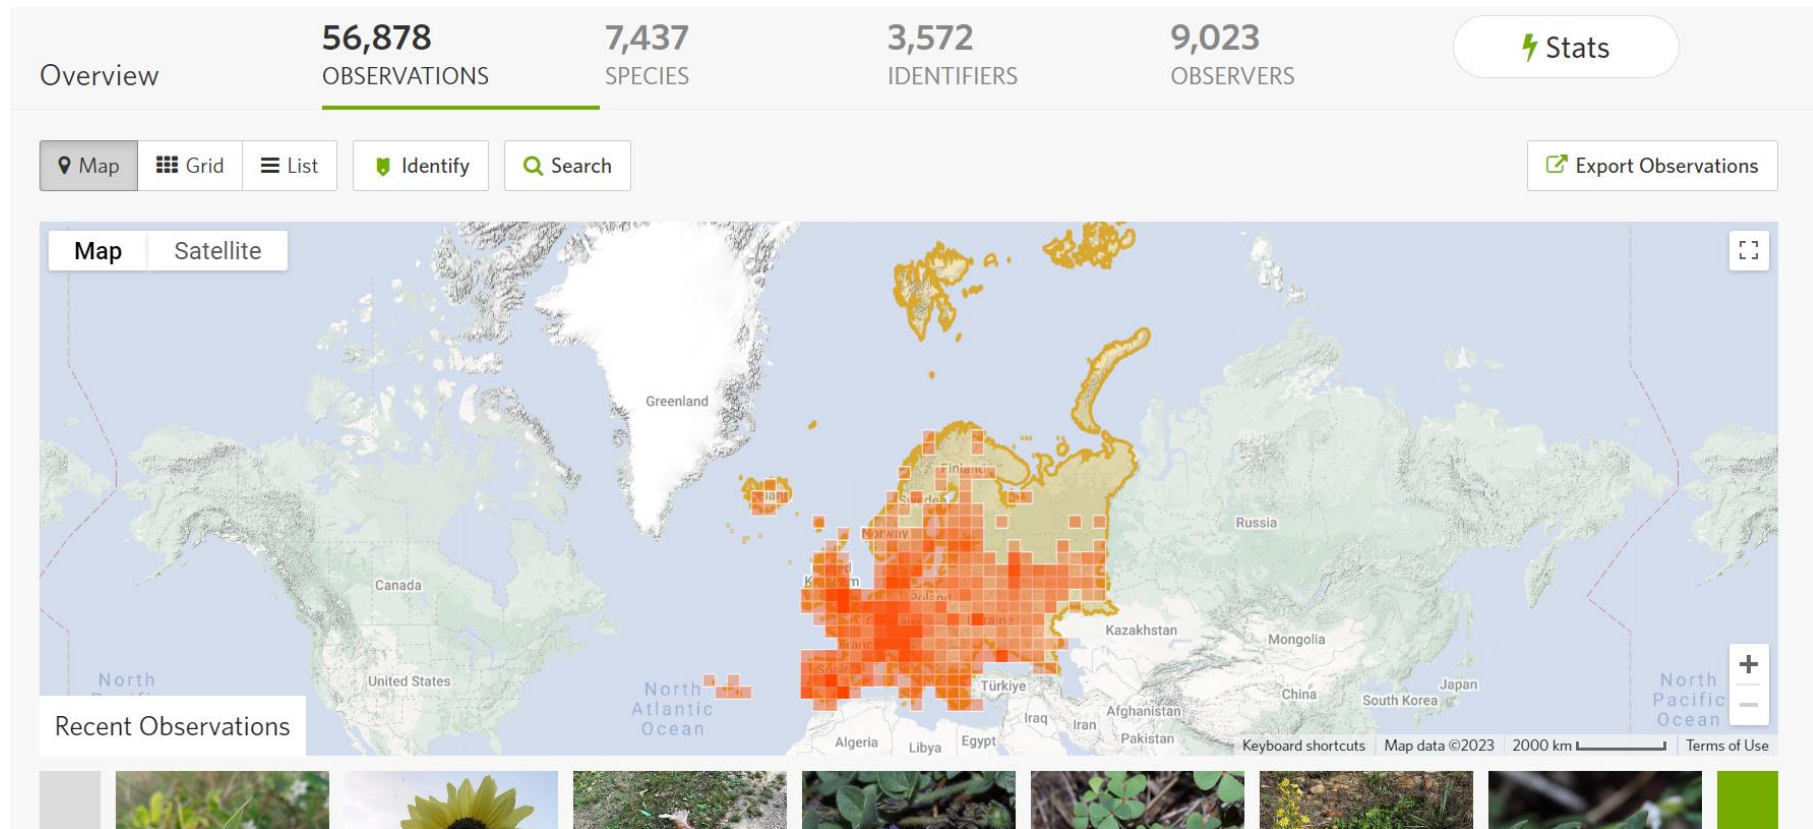

Local Environmental Record Centres

NBN Atlas

Data can be used by conservation groups,
research organisations, government bodies
